# Andrew Gosselin

## Web Developer

Results-driven developer with a strong history of applying web frameworks in creative and high-impact technical environments.

## Experience

**Newtech Dealer Services - Michigan, USA (On Site)**
https://newtechdealerservices.com/

Internship (COOP) | *March 2017 – Jan 2018*
Junior Developer | *Jan 2018 – Dec 2018*
Software Engineer | *Jan 2019 – Sep 2021*

- Led customer-facing Laravel development (SSO, import/export, CRM, SAAS).
- Maintained and migrated legacy Laravel systems; integrated with legacy CRM platforms.
- Mentored interns, enabling rapid onboarding and production contributions.

**Gray Television – Michigan, USA (Remote)**
https://graymedia.com/ | Roku App

Digital Developer | *Oct 2021 – Sep 2022*

- Built and maintained large-scale Laravel web applications serving U.S. audiences.
- Managed AWS infrastructure, deployments, and uptime for scalable, secure systems.
- Delivered a production-ready Roku app for PowerNation TV in collaboration with partners.

**Picnic Technologies – Amsterdam, NL (Hybrid)**
https://picnic.app | https://jobs.picnic.app/

Web Developer | *Oct 2022 – Sep 2024*
Tech Lead & Developer | *Oct 2024 – Oct 2025*

- Modernized the web stack and improved build and deployment workflows across products.
- Dockerized web applications and implemented CI/CD pipelines using TeamCity.
- Managed and optimized high-traffic WordPress platforms with custom plugins; migrated them to AWS EKS using Helm.
- Built a content rendering platform aggregating data from CMSs and external APIs.
- Automated builds, releases, and developer workflows using Python.
- Introduced modern frameworks (Next.js) and led large-scale migrations as Tech Lead.

## Skills

**Laravel** – *PHP, Blade, VueJS, Tailwind*

*Leveraged Laravel throughout my career to build, scale, and maintain applications across a wide range of technical domains and business use cases.*

**NextJS** – *Typescript, ReactJS, Tailwind*

*Built and scaled Next.js applications over the last 4 years, gaining deep expertise in the framework's internals, SSR strategies, SEO optimization, and best-practice architectural patterns.*

## Projects

**VoicED Assistive Communication** – *2018*

*News article*

*This was a project that offered an alternative form of assistive communication through a fully customizable web and mobile app. This was also covered by a few news outlets and won a grant during the time it was developed.*
